

The **Society for Imprecise Probabilities: Theories and Applications** will hold a **Workshop on Uncertainty** at **Columbia University** on **April 17th of 2010**, following the Synthese Conference on epistemology and economics that will take place at Columbia University on April 15th and 16th. We expect the workshop to feature a mixture of invited and contributed talks on the use of imprecise probabilities in models of inference and decision making under uncertainty.

Those who are interested in contributing a talk to the workshop should send a short abstract (no more than 300 words) to synthese.conference.2010@gmail.com with "SIPTA Workshop Contribution" in the subject of the message. Submitted abstracts must contain enough information for the committee to determine their suitability for a 20 minute talk followed by a 10 minute discussion period. Submitted abstracts must be received by **February 20, 2010**. Notifications of acceptance will be made by **March 1, 2010**. Due to the limited amount of space in Philosophy Hall, we ask those who would like to attend the meeting without giving a talk to send a copy of their CV to the same address as above but with "SIPTA Workshop Attendance" in the subject of the message.

Important Dates

Submissions: by February 20, 2010

Notifications: by March 1, 2010

Meeting: April 17, 2010
